

## Practical Astronomy and Geodesy; Including the Projections of the Sphere and Spherical Trigonometry. for the Use of the Royal Military College (Paperback)

Filesize: 3.4 MB

### ***Reviews***

*Most of these publication is the greatest publication offered. It is actually rally intriguing throgh reading period of time. You can expect to like just how the article writer create this publication.  
(Eddie Schuppe)*

## PRACTICAL ASTRONOMY AND GEODESY; INCLUDING THE PROJECTIONS OF THE SPHERE AND SPHERICAL TRIGONOMETRY. FOR THE USE OF THE ROYAL MILITARY COLLEGE (PAPERBACK)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1845 Excerpt: . the sun, and through E imagine the rectangular co-ordinate axes EX, EY, Ez to be drawn, of which Ex and Ey are in the plane of the ecliptic, and the former passes through the equinoctial point T. Imagine S to be the place of a spot on the sun s disk, and s its orthographical projection on the plane of the ecliptic: again, let the co-ordinates Ex, EY of the point S be represented by x and Y, and ES by R; then since the angle T E S, the sun s longitude, is represented by L, we have  $x = R \cos L$ ,  $Y = R \sin L$ . Let now Es be represented by r; also let the co-ordinates EX, EY, S s of the spot S be represented by x, y, z; then Tes, the geocentric longitude of S, being represented by-Z, and S E s, the geocentric latitude, by X, we have, as in art. 184.,  $x = r \cos. X \cos. l$ ,  $y = r \cos. X \sin. l$ , and  $z = r \sin. X$ . Lastly, let the three rectangular co-ordinates of S, with respect to S, be  $x$  ( $--sx$ )  $y = (sy)$  and  $z = (S s)$ , and let the semidiameter s S of the sun be represented by r : then,  $x --x--X$ , and  $y --y--Y$ ; and in these equations substituting the above values, we have for the equivalents of x, y...
