Reviews

Comprehensive guide! Its this type of very good read through. It is actually written in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

The projectors of this great international reunion, after mature study of preceding exhibitions, evolved a programme which embraced in its scope the productions and results of every industry, art, and science, as well as their processes and methods of operation. This was done not merely for purposes of competition and the distribution of prizes, but also, and more especially, with the object of passing in review, under the scrutiny of the most accomplished experts and men of science, all of the fruits of the skill, industry, and inventive and artistic genius of every nation, in such a manner that the exact condition and the comparative merits or defects of the industrial development of each nation and of each description of article or process could be set forth; the progress which such examination indicated, measured, and explained; and the highest standards of excellence be placed within the reach of all by means of carefully prepared reports. From the commencement of the industrial epoch which dates from the London Exhibition of 1851 the profound significance and value of such exhibitions have been realized by the people and governments of the civilized nations. Their beneficent influences are many and widespread; they...
